London Gay Switchboard, 1980

Single channel video

6:32 minutes

Edition of 3

Included in *Keywords*, Iniva (2013) and Tate Liverpool, (2014) *London Gay Swithboard* was originally shown in the 80's as a slide presentation and is now digitally re-mastered as a video work about the hysteria of the 1980's AIDs climate in Britain.

The video depicts the central information point that helped thousands of men and women access expert information on the virus. The beauty of the work is that it also shows the day-to-day aspects at the gay switchboard as well as the intimate social life of the community.
